IMPURITAR IN THE BLOOD .- We have seen hosts of letters from people who have received great benefit from the use of Clarke's Blood Mixture. It cannot be too highly estimated, for it cleanses and clears the blood from all imparities.' This is a good testimonial from the Family Doctor, which goes on further to say! It is the finest Blood Purifier that soiones and skill have brought to light, and we can with the atmost confidence recommend it to our subscribers and the public generally.' For Scrotule Scurvy, Eczema, Bad Legs, Skin and Blood Diseases, Pimples and Sores of all kinds, its effects are marvellous. Thousands of wonderful cures have been effected by it. Clarke's Blood Mixture is sold everywhere, at 2s. 9d. per bottle. Beware of worthless imitations and substitutes.

CHINA'S FOREIGN TRADE.

"The Investors' Review" on the Currency.

In an article on the foreign trade of China in 1902, The Investors' Review says : -How stationary the exports from Chinaare is shown by the fact that during the last forty years their increase is little more than nominal. In the quinquennial period, 1861-65, the exports of tea and silk were worth \$120,000,000, market value, or an average of £25,000,000-a year. In 1902, although the principal articles exported had rison in number to 28, their value was Public Works Department, only £27,840,000, or little more than when there were only two. But with a better system of inland collection and improved routes of communication a change ought soon to take place, and a period of expansion set in, especially if some satifactory method of dealing with the currency can be discovered. This, however, is a difficult problem in any country, but in China it is doubly so because the media of exchange are so confusing and various, 'the units ranging from sterling drafts on the castern coast to empty bottles on the south-western hills,' to quote the apt description of our commercial attaché at Pekin. To bring all these on to one level is a task which might swell terrify the economists of the Times. yet it will have to be done. For if the hold at the REGISTERED OFFICES of Chinese exports and imports are examined the Company, 38 and 40, Queen's Read they reveal a well defined division into European and Asiatic, a division marked not only by differences in the articles themselves, but also by the fact that the former go to these countries which use a gold standard and the latter to those which either use or recently used silver one. Because Japan, the Straits, and the Philippines have all recently become gold standard countries, it is imagined that it would be to China's benefit to follow their lead and adopt gold also. But as a matter of fact if China made such a revolutionary change in her currency she would find herself face to face with the double problem of establishing not only a ratio between gold and silver, but also 1587 between gold and copper. For although nominally a silver currency country she is in reality a copper one, the real basis of her coinage being the copper cash, which in terms of silver has depreciated year by year. The difficulty would hardly be a pressing one, but for the way in which China has been bound in debt to the foreigner. It is commodities she exchanges not currencies, just like all countries, and were there no demand upon her to supply gold to pay debt interest abroad the internal currency confusion, would affect the mercantile community little. With debt charges added, however, the subject becomes pressing, and all China's creditors agitate and clamour for a 'stable' currency. They-will do more harm their good if they try to establish such a currency in the ORCHESTRA to take part, the proposed interests of the foreign creditor -an they surely will -and not in those of the

wretenedly poor people of China.

The Health and Vigour of an individual depend upon the quantity and quality of the Blood. When the tissues have been at work, there are thrown into the blood, waste products, and if these be not eliminated but (through any cause) detained in the blood they influence nutrition and function and finally produce organic disease. The Humanitarian. In cases of Scrofula, Scurvy, Eczema, Bad Legs, Skin and Blood Diseases, Pimples and Sores of all kinds, the effects of Clarke's Blood Mixture are marvellous. The various committees appointed to carry out the arrangements worked with a will to make everything a success, and they heartily co-operated, with the President, Mr Donald Macdonald and the Secretary, Mr J. Miller, both of whom, with Mr H. T. Richardson-who was respensible for the decorations-were extremely energetic and by their courtesy and consideration did much to make those present happy and comfortable. Messrs Murphy and Lambert, R.N.R., acted as M. C.'s and performed their tasks well.
